The purpose of Chamber Music NOW! is to provide an expanded chamber music opportunity for those who would like to continue to enrich their musical studies.

Chamber Music NOW! groups will be coached by members of the Whatcom Symphony Orchestra. The participants will meet twice a month with a coach from the WSO, rehearse on the alternate weeks, and culminate each 10-week session with a concert.

It will be exciting to bring together students and adults from different schools and counties to challenge them and further their musical experiences and share the joy of music making.
